What do you do?

My current focus is on expanding the 12-week training program. Previously, I was responsible for ATG's Delivery Organization including training and supporting all team members.

What did you do before your career at ATG?

I was part of the senior leadership team in IT organization for the major grocery retailer SUPERVLU.

Why did you choose to pursue a career in technology?

I did not choose a career in technology, I stumbled into it.

What advice would you give yourself starting your career?

Trust your gut more. Be confident in what you logically know is right, the older/more experienced people are not always right.
