

# TRAVIS SUZUKI

Advanced Technology Group,  
a Cognizant company

## Job Title

Developer

## Hometown

Ennis, MT

## Education

The University of Montana;  
B.A. in History and Political  
Science

## What do you do?

I am primarily a Developer who works with the custom code on projects. Additionally, I am also an Aim Team Lead, providing support for other members of Aim both in training and once they begin their careers with Cognizant.

## What did you do before your career at ATG?

Education/High School Teacher. Prior to Aim, I was the teacher for Missoula Juvenile Detention Center for 3 years.

## Why did you choose to pursue a career in technology?

I have always been interested in the tech sector and advances in technology as a whole. While I was studying to become a teacher, I used my spare time to learn what I could and integrate applicable technology in his classroom.

When I learned about the 12-week training program, I had reached a point where I was looking to change careers. Aim Training provided me with the opportunity to begin a new career path into technology.

## What advice would you give yourself starting your career?

I would remind myself of the advice my grandfather gave me. That when we find ourselves in situations where you feel powerless or overwhelmed, work to center yourself and look for the opportunity.
